FISCAL YEARS 2022-2028 TRANSPORTATION IMPROVEMENT PROGRAM

Resolution

WHEREAS, Fixing America's Surfaced Transportation Act (FAST), as defined in 23 CFR 450 and 500; and 49 CFR 613, calls for each metropolitan planning organization to have a financially constrained Transportation Improvement Program (TIP) that is derived from the Metropolitan Transportation Plan and developed as part of the transportation planning process; and

WHEREAS, the KMPO Policy Board maintains the TIP that is fiscally constrained by year and by each governmental entity; and

WHEREAS, all projects proposed for Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funding have been identified within the TIP and do not exceed the anticipated funding levels available within the current program year; and

WHEREAS, the total Federal share of projects included in the second, third, fourth and/or subsequent years of the TIP do not exceed levels of funding committed, or reasonably anticipated to be available, to the area; and

WHEREAS, it is agreed that after KMPO Board and Idaho Transportation Board approval, the TIP shall be included without modification, directly or by reference, in the State TIP program required under 23 USC 134(j), 49 USC 5303(j) and § 450.324 and shall be consistent with FHWA and FTA joint approval; and

WHEREAS, the TIP has considered during the identification and project selection process, the ITD Transportation Performance measure presently approved by the ITD Board and KMPO Board,

THUS, BE IT KNOWN that the KMPO Policy Board hereby endorses and approves the Fiscal Year 2022-2028 Transportation Improvement Program as presented to us in the September 9, 2021, KMPO Board meeting and said transportation program is in conformance with the Idaho State Transportation Improvement Program (ITIP).

Adopted this <u>9th</u> day of September, 2021	
SIGNED:	ATTEST:

KMPO Board Chair	Executive Director

Introduction

The Kootenai Metropolitan Planning Organization (KMPO) is an agency designated through a Joint Powers Agreement, by local jurisdictions in Kootenai County and the Governor of Idaho, to conduct metropolitan transportation planning that is continuing, comprehensive, and cooperative transportation process for Kootenai County. Under the requirements of the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), KMPO has the responsibility in collaboration with the Idaho Transportation Department, local jurisdictions and public transportation service providers to develop a Transportation Improvement Program (TIP) for the area.

The KMPO's TIP is a short-range, seven-year program of highway, transit, and non-motorized projects for the Kootenai Metropolitan Area, which is defined as all of Kootenai County. It is a compilation of projects selected from various Federal, State and local funding programs and sources. The TIP is generally approved annually; however, amendments to the program are often conducted throughout the year by Board action or Administrative Amendment.

The TIP is presented in six sections:

- A. Funding
 - a. Federal Sources
 - b. State Sources
 - c. Local Sources
 - d. Private Sources
- B. Programming
 - a. Prioritization and Selection of Projects
 - b. Approval
 - c. Funding
- C. Annual Listing
 - a. Funding programs and projects
 - b. Financial Review
- D. KMPO Transportation Improvement Program
- E. Financial Plan
- F. Certifications

A. Funding

Funding sources for transportation improvement projects are needed if the recommended projects are to be constructed. Funds may be provided from Federal, State, and local governments, as well as private developers. The following is a brief summary of available funding sources that can be used in the Kootenai metropolitan area.

a. Federal Sources

The FHWA and the FTA provide the major source of funds from the Federal government for transportation improvements. However, some funds can be acquired from other Federal agencies. Available funding sources include:

FHWA

- **Federal Freight Funding -** Introduced in the FAST Act, these funds are split between a formula distribution to the States and a nationwide competitive program referred to as INFRA.
- Interstate Maintenance Program Funds are used for resurfacing, restoration, rehabilitation of the Interstate System (I-90).
- **Highway System Program** (NHS) Limited to designated NHS roads throughout Idaho State, these funds are used for transportation facility improvements ranging from existing to new facilities.
- Surface Transportation Block Grant (STBG) Funds are used for construction, reconstruction, resurfacing if roadways designated on the Federal-aid system. This can include sidewalk and pathways when adjacent to or within an existing right of way, as well as eligible for transfer to the Federal Transit Administration to support projects for public transportation purposes. STBG-Congressional are projects that may be awarded by Congressional earmark.
- STBG-R STBG funds designated for facilities located outside of Federally Designated Urbanized areas. These funds carry the same eligibility and are managed by the Local Highway Technical Assistance Council (LHTAC) through their project selection processes.
- STBG-U STBG funds designated for Facilities located within federally designated urbanized areas. These funds are allocated generally on a population basis; however, the overall program of projects is managed under a cooperative arrangement among MPO's and LHTAC in cooperation with ITD.
- STP Safety A mandatory ten percent (10%) of all STP funds are to be used for safety improvements to roads and railroad crossings, including railroad crossing devices. Funds may also be used for transit safety improvements and programs.
- Transportation Alternatives Program (TAP) A mandatory ten percent (10%) of all STBG funds are to be used for nontraditional uses ranging from historic preservation to water run-off mitigation. TAP projects are solicited statewide and selected by an ITD established committee, with KMPO review of projects located within the MPO designated area. Within the FAST Act, eligibility was broadened to encompass previous programs.

- **Bridge Program** Funds are used for replacement of substandard bridges. These funds can be used for bridges on all streets both on and off the Federal-aid system. Bridges must have a 20-foot span, be inspected, rated, and determined to be deficient to qualify for Bridge funds. Bridge replacement projects will be selected on a statewide basis from bridges with sufficiency ratings below fifty (50).
- Congestion Mitigation/Air Quality These funds are currently not programmed by ITD in the State of Idaho.
- **High Priority Project/BUILD/INFRA** Discretionary competitive funds allocated by the United States Congress to USDOT for projects demonstrating solutions to transportation problems that can improve the local, state and national economy.

In order to clarify the type of projects being constructed, similar projects funded with Interstate Maintenance (IM), National Highway System (NHS), STBG-State, Bridge-State or State funds have been grouped into corresponding funding categories. These categories include: Bridge Improvement, Bridge Preservation, Connecting Idaho, Horizon Planning, Mobility, Pavement Preservation, Rest Area, Restoration, Safety, Systems Planning and Systems Support.

FTA Sources:

- FTA 5303 Funds available for MPO's to conduct transportation related planning activities within the metropolitan area boundary.
- FTA 5307 Provides funds to local transit agencies for capital, operating, preventive maintenance assistance. Funds may also be used to support planning activities when identified in the approved Unified Planning Work Program. Kootenai County is the designated recipient of 5307 funds.
- **FTA 5310** Funds available for capital expenditures of agencies providing transportation service to the elderly and disabled through purchase of service or purchase of equipment. Projects are selected by the KMPO Board for consideration by the Statewide Urban Balancing Committee. The program is managed by ITD Public Transportation Division as a statewide program under the auspices of the FTA designated Governors Apportionment.
- FTA 5311 Funds available for operating, capital and preventive maintenance in rural areas. This includes rural interstate bus service.
- FTA 5339 Grant funds used for capital and facility improvements. Projects are selected by the KMPO Board for consideration by the Statewide Urban Balancing Committee. The program is managed as a statewide program by ITD Public Transportation Division under the auspices of the FTA designated Governors Apportionment.

State Sources:

State Funded Program (ST) - Funds used for lower cost State highway construction projects that can be developed at a lesser expense than required when using Federal funding. Funds may typically be used for pavement improvements, bridge repair, and other unanticipated projects.

Restricted State Funds - Funds are primarily used for capital improvements including pavement, bridge and railroad crossings. Fifty percent (65%) of the funds are retained by ITD and thirty-five percent (35%) are allocated to the cities and counties from the Highway Distribution Account. Highway Distribution Account funds may also be used to match Federal funds.

Local Sources:

Local funding sources may be used as a local cash match or for transportation projects not supported by Federal funds. Local sources presently available for funding in the metropolitan area include general revenues, special improvement districts, bonds, tax increment financing, and property tax levies.

Private Sources:

Private funding sources may include dedications of right-of-way and new roads, development fees, impact fees, or actual cash contributions provided by developers.

B. Programming Process

a. Identification, Evaluation and Selection of Projects

Projects selected for further development within the urbanized portions of Kootenai County are identified through the regional transportation planning process by the appropriate local and State staff members and elected officials. These projects were evaluated by KMPO staff and committees for reduction in overall traffic congestion; improved safety; effect on environmental impacts; ability to move goods, services and people; intermodal connectivity; conformance with local and regional transportation plans; economic benefit to the metropolitan area; and fiscal constraint. Kootenai County, as the "Designated Recipient" for FTA Section 5307 funding, utilizes their own process for creating the FTA required Program of Projects (POP) used by FTA in the grant approval process. Inclusion of the Program of Projects into the TIP affords the community the opportunity to identify how FTA funding is proposed to be utilized, as well as an opportunity to comment on projects prior to the KMPO Board approval of their inclusion in the TIP. Once included, ITD, Kootenai County, local jurisdictions and the Coeur d' Alene Tribe can proceed with the grant application process to secure the designated funding.

Typically, all major projects programmed in the TIP are derived specifically or by policy from KMPO's Metropolitan Transportation Plan (MTP). The MTP identifies needs through 2040 and the latest update was approved in December 2016. The Plan consists of highway, transit, and non-motorized improvements to meet the estimated needs of the area over a minimum of the next 20-years. KMPO has accepted the performance measures and targets approved to date by the Idaho Transportation Board and have been considered in the selection and approval of projects for their contribution in achieving and/or exceeding the statewide targets. Elements of the MTP are updated on a regular basis.

b. Review and Approval

The Kootenai County Area Transportation Team (KCATT) committee is composed of professional engineers and planners working for the entities within the region, as well as non-voting members representing various modes of transportation. It is their responsibility to advise the KMPO Board regarding technical matters related to the development and inclusion of projects within the TIP. Kootenai County works with area public transportation

providers to establish a program of projects for consideration during the review and comment on public transportation plans and projects being considered in the TIP. The KCATT and Kootenai County Section 5307 Program of Projects (POP) recommendations also go to the KMPO as part of the Board's deliberations and decisions on projects being included in the TIP for Federal aid funding. Kootenai County and KMPO have agreed the public review process used in development of the TIP/STIP will be the avenue to public review and comment of projects being considered in the TIP/STIP.

The KMPO Board is composed of elected officials and transportation representatives within the area. This Board provides the policy and decision-making function of KMPO and serves as a public forum for discussion of TIP-related transportation issues and policies prior to the TIP's approval. A review of specific project details and descriptions, as well as an opportunity to comment, can be found at: https://itd.idaho.gov/funding/?target=draft-itip.

The Idaho Transportation Board, as the designated representative for the Governor of Idaho, includes KMPO's Metropolitan TIP into the Statewide TIP (ITIP) as part of the statewide approval process before the overall program is submitted to FHWA and FTA. All projects reflected in the TIP have the opportunity to be reviewed by citizens of the communities through various public participation efforts in coordination with the ITD.

c. Fund Authorization and Obligation

All projects must follow Federal regulations and guidelines during all phases of a projects development in order to be eligible for Federal aid funding. The various phases of a project can include preliminary engineering, environmental studies, review and approval of the design, purchase of necessary right-of-way, and approval of final plans, specifications, and estimates. Each phase is generally eligible to receive Federal funds, although project sponsors are encouraged, at times, to use their own funds, especially in the early phases to expedite development. These phases of a project are identified in the program. Early participation in a project's development ensures ample opportunity to provide input on the design, concept and scope of the project. By the time a project is ready for construction, the construction plans are nearing completion and right of way (ROW) has been secured. This leads to fewer opportunities to make modifications to the project.

When a highway project reaches the construction/implementation phase, the sponsor will request ITD to obligate funds from FHWA or FTA and advertise for bids. The priorities set in developing the TIP/STIP help to determine which projects will be able to receive funding during any given year. These priorities can be amended at any time by policy action of the KMPO Board; however, projects may be advanced between program years without further action.

An FTA designated grant recipient applies directly to FTA for Section 5307 grant funding approval for public transit related projects. These projects, too, must be contained in the approved TIP and STIP prior to funding obligation by FTA. FTA grants managed by ITD (5310, 5311, and 5339) follow a similar process as highway projects, where ITD is the grant recipient and project sponsors are subrecipients. Project funding levels and scope can be amended by KMPO through an amendment of a project already contained in the TIP/STIP; however, once a project is obligated through a grant or subrecipient agreement, the process for modifications must be resolved between KMPO, the project sponsor and granting agency. A TIP/STIP amendment may or may not be required.

C. Annual Listing

A listing of completed or obligated projects from the first year of the prior year's TIP (2020) will be published by the KMPO Board in January 2022. The listing will provide available information about each project obligated including location, costs, and other project elements.

D. Kootenai Metropolitan Area Transportation Improvement Program

a. Funding programs and projects

The TIP is a program of Federal-aid projects for the region that are anticipated to be implemented over a seven-year period from 2022 to 2028. **Table 1.0** identifies FHWA Federal-aid funded projects by funding and funding source. **Table 2.0** identifies FTA funded public transportation project by funding and fund source. **Table 3.0** also identifies Federal-aid transit operating, capital assistance and planning projects. **Appendix B** provides the Coeur d' Alene Tribe's Tribal Transportation Improvement Program. Regionally significant projects having an impact on the regional transportation system are also identified, if such projects are under development. These projects are (1) substantial, such as major road widening, re-alignments, etc., (2) major transportation facilities, such as a principal arterial, and (3) when other federal, state, local or private sources are used.

Projects funded by a discretionary program including High Priority Program/BUILD, FASTLANES/INFRA, and FTA 5339 projects are not generally identified unless a project has been specifically approved by USDOT or Congress.

The TIP identifies the project elements of each project by year. Each project is identified by its location, type of work activity, funding category, estimated construction cost, and sponsor. Project locations are identified in Appendix A. Priorities are not identified for projects within the same fiscal year. Projects scheduled for the first three years of the program are eligible to receive funding during the program's first year. Projects beyond three years are for informational purposes only and an amendment to the TIP is required to have phase(s) moved to within the first three years of the program.

TIP Project Acronyms:

CN – Construction

IM - Interstate Maintenance

NHS - National Highway System

PD - Preliminary Development

PE - Preliminary Engineering

PL – Land Purchase

RW - Right-of-Way

RRX - Railroad Crossing

STP - Surface Transportation Program

TAP – Transportation Alternatives Program (Formerly Community Choices)

SR2S - Safe Routes to School (Previous Program covered in TAP

For the work of installing approximately 2,500 feet of guardrail along three different stretches of roadway: approximately 800 feet of improvements and guardrail to increase the uphill clear zone distance and visibility around curves; guardrail locations where pavement striping may be shifted to provide space for guardrail and standard lane widths; middle stretch of guardrail includes a mill and overlay segment where no widening is required. This is being done to add guardrail, increasing uphill clear zone, and improve super elevations at key locations to reduce or eliminate fatality and injury crashes along the corridor.

E. Financial Plan

Fiscal Constraint

The TIP is a fiscally constrained document. Funding sources are identified, and projects expected to be funded. Table 3 identifies the estimated project costs programmed in the TIP annually for the next five years. Prior to programming projects, these estimated costs are compared with anticipated revenues which are documented annually by ITD in the "Update Packet for the Capital Investment Program." If costs do not match anticipated revenues for the fund group, adjustments are required to balance the program. Therefore, revenue and costs are the same.

TABLE 3.0 FY2022-2028 Program by Activity all Modes ¹ (000's)

Activity	2022	2023	2024	2025	2026	2027	2028	Early Development	Total
Public Transportation	2,990	2,662	2,314	2,313	2,834	-	-		13,113
Highway Construction Highway Design-	16,880	32,130	39,395	28,907	25,742	20,991	16,048	162,444	342,537
Engineering	3,475	1,016	807	235	343	-	-	23,000	28,876
Highway Right of Way	3,665	602	33	-	-	-	-	494	4,794
Total	27,010	36,410	42,549	31,455	28,919	20,991	16,048	185,938	389,320

The ITIP Program managed by ITD incorporates annual increases in project funding levels based on historical trends. Revenue tied to annual appropriations based on language contained in an Authorization Bill, have been held constant with the current short term authorization bill (FAST Act) and the uncertainty that exists with future programs. Project costs during 2012 and 2031 have seen stable bid prices, as such forecasting anticipated project cost increases may be counterproductive, until economic conditions become more certain. 2022 TIP Total \$389,320

Federal funds are available to local communities for roadway, bridge, bicycle and pedestrian improvements, etc. as well as the operation, maintenance, and capital needs of the regions public transportation system. Most of the available federal funds are dispersed on a statewide basis based on value and need as determined by the ITD Board. However, some of the STBG-Urban Program and FTA 5307 funds are made available to the KMPO area and projects are identified based on area priorities. The ITD Board policy does not allocate all STBG-Urban funds to areas between 5,000 populations and 200,000 populations at this time, so it is uncertain where or how these unallocated apportionments will be subsequently programmed. It is, therefore, impractical to conduct a fiscal constraint analysis at the MPO level, as program funds and funding levels are managed and maintained by ITD.

TABLE 4.0 STBG-Urban Program Annual Fund Balances for the KMPO Planning Area¹

STP Urban Funds	FY2022	FY2023	FY2024	FY	2025	F	Y2026	F	Y 2027	F	Y 2028	Prelin Devel n	opme	Total
Allocated STP-U Funds	\$ 1,151,953	\$ 1,151,953	\$ 1,151,953	\$ 1	,151,953	\$	1,151,953		\$ 1,151,953	\$	1,151,953	\$ 5,0	000,000	\$ 11,911,718
Match Requirement	\$ 91,251	\$ 91,251	\$ 1,251	\$	1,251	\$	1,251	\$	1,251	\$	91,251	\$ 3	98,000	\$ 945,506
Total Available Funds	\$ 1,243,204	\$ (743,592)	\$ 199,612	\$ (2,	857,184)	\$ (1,613,980)	\$	(370,776)	\$	872,428	\$ 5,3	98,000	\$ 13,247,224
Programmed Funds	\$ (3,230,000)	\$ (300,000)	\$ (4,300,000)									\$ (5,00	08,000)	\$ (12,462,694)
Balance of Funds	(1,986,796)	(1,043,592)	(4,100,388)	(2,	857,184)	(1,613,980)		(370,776)		872,428	3	390,000	784,530

¹Note: Programmed STP funds include costs for preliminary engineering, right-of-way and construction. Revenue tied to annual appropriations based on language contained in an Authorization Bill, have been held constant due to the uncertainty that exists with future program levels.

Table 4.0 identifies that the KMPO area STBG programs potentially available as STBG-Urban funds. The STBG-Urban Program process is hypothetically based on an equitable borrow and lend concept where urban areas can program another urban areas' unused allocated funds for that year in order to balance the overall STBG-Urban Program.

Table 5.0 identifies the estimated FTA 5307 federal apportionments to the KMPO urbanized area compared with programmed amounts. The FTA 5307 apportionments are subject to annual appropriation. The TIP/STIP will be adjusted accordingly as actual amounts are made available.

TABLE 5.0 FTA 5307 Anticipated Fund Balances for the KMPO Urbanized Area¹

Currently Kootenai County fully utilizes apportioned funds by taking advantage of in-kind contributions from the Coeur d' Alene Tribe and Kootenai Health. If additional funds were secured, Kootenai County could potentially expand operations and services within the urbanized area.

System Operations and Maintenance

It is important to recognize the amount of transportation funds being used to operate and maintain the current roadway and public transportation systems.

Roadways

Federal funds are used to replace and rehabilitate poor pavement conditions. State and local funds are also used for re-paving, as well as all other aspects of operating and maintaining the roadway system, including striping, sign replacement, traffic signal operations, snow removal, lighting, etc.

Revenues generated from the state highway distribution account, sales tax and local general fund make up the majority of funding available to operate and maintain the existing roadway system. It is very difficult, if not impossible, to determine how much of the revenue will be expended on the federal-aid highway system as opposed to other local roadways. Available local revenues are used to address the immediate operating and maintenance needs of the area regardless of the facility type. Typically, local jurisdictions will provide the minimum local match for projects on the federal-aid system where they can leverage their limited funding. This leaves local funds, to the extent available, for the local system, which is maintained with local sources.

The analysis located in the Appendix identified that, based on past history and currently programmed funds, over half the estimated revenues will potentially be available for operational and maintenance type projects. It should be noted that historically, when only considering state and local revenues annually budgeted for transportation improvements by the local jurisdictions, approximately 34% are used on activities categorized as operations and maintenance, while only 26% are used on expansion and reconstruction projects.

Approximately 97% of the revenues for operations and maintenance are generated from local (56%) and state revenue (38%), which is primarily from funds transferred from non-highway accounts and from the highway distribution account. Only 4% of total revenues come from federal sources, which are used for major construction or reconstruction projects. Large federal aid projects, during any given year, can significantly impact these percentages. In summary, because costs for roadway operations and maintenance equal estimated revenues, it is hard to quantify whether more than \$40.2 million annually is adequate to operate and maintain the current roadway system, but rather a reflection of available resources.

• Public Transportation

Because federal funds with local/other matching funds are solely used to operate and maintain the public transportation system, available revenues equal the costs programmed in the TIP. **Table 7.0** identifies the percentage of funds expended between capital and operations/maintenance.

TABLE 7.0
Kootenai County Programmed Expenditures on Public Transportation

Work Type	FY 2022	%	TOTAL	%
Capital	\$898,000	0	\$ 2,316,000	17.6
Operations/ Maintenance/ Administration	\$2,092,000	100	\$ 10,797,000	82.3
Total	\$2,898,000	100	\$ 13,113,000	100

Source: Kootenai County April 2021

Kootenai County will expend approximately 82 percent of its anticipated revenue to operate and maintain the current system. The ability to add service or acquire additional fleet vehicles is solely dependent on the ability to identify a sustainable funding source to support public transportation.

Performance Measures

Kootenai Metropolitan Planning Organization has, by Board action, accepted the Idaho Transportation Department's federally-required performance measures related to safety and highway conditions. This program of transportation projects is consistent with improving the safety, reliability, and condition of the regional transportation system through various improvements being funded through a variety of funding programs that prioritize and select projects that are derived either specifically or by policy from the Metropolitan Transportation Plan. Those ranking systems take into account the related performance measures.

• Safety

On February 8, 2018, the KMPO Board voted to support ITD's statewide safety targets. ITD has set targets for each of the five measures that have been established to monitor progress towards reducing fatal and serious injury accidents on all public roads.

The five-year, 2015-2019 data for Kootenai County shows that the average number of fatalities and the fatality rate per 100 million VMT have increased slightly over the previous five-year period. The average number of serious injuries, rate of serious injury crashes, and average number of non-motorized

	2017-2021 Statewide Target	2015-2019 Kootenai County
5-Year Avg. Number of Fatalities	247	14
5-Year Avg. Fatality Rate per 100 million VMT	1.38	0.98
5-Year Avg. Number of Serious Injuries	1,285	76
5-Year Serious Injury Rate per 100 million VMT	7.21	5.2
5-Year Avg. Number of Non-motorized Fatalities & Serious Injuries	120	9.8

fatalities and serious injuries decreased. Overall, Kootenai County's fatal and serious crash rates meet ITD's safety targets.

The following projects are programmed with an emphasis on improving safety in the region:

Key Number	Program Year	Project	Safety Improvements	Total Cost
10005	2026	SH 53/Pleasant View Rd IC	Construct two underpasses for SH 53 and BNSF RR at Pleasant View Rd; provide on/off ramps to Pleasant View Rd; close two RR crossings and intersections on SH 53.	\$32,512,000
13864	2023	Meyer Rd & Boekel Rd Intersection	Add additional operational capacity to intersection.	\$1,230,000
20038	2022	Ramsey Rd – Chilco Rd to Scarcello Rd	Construct a grade separated railroad crossing.	\$7,865,000
20378	2025	Huetter Rd UPRR Crossing	Add gates and signals.	\$250,000
20394	2023	Idaho St UPRR Crossing	Install type 1 signal, constant warning protection, planking, and cabinet.	\$310,000
20442	2025	I90/SH41 IC	Construct new interchange at I90 and SH 41; realignment of ramps and intersecting roadways.	\$48,804,000
20575	2022	SH 53 – Hauser Lake Rd to Bruss Rd	Widen roadway to 3 lanes; construct center and right turn bays; add illumination.	\$10,350,000
20641	2023	SH 53/Ramsey Rd Intersection	Install traffic signal, right/left turn bays on SH 53, and left turn bays on Ramsey Rd; add illumination and signing.	\$2,958,000
20641	2026	I90 – Cedars to Dudley Rd	Reconstruct and install concrete barriers in median.	\$6,928,000
20695	2022	SH 53 – Latah St to MP 9.3	Widen roadway to 3 lanes; widen shoulders to use for right turn movements.	\$4,884,000
21937	2026	SH 41 – Diagonal Rd turn bays	Widen roadway and install turn bays on SH 41 with illumination.	\$1,905,000
21939	2025	SH 53 – WA state line to Hauser Lake Rd	Reconstruct existing roadway with wider shoulders, turn bays and illumination.	\$3,130,000
22397	2022	Guardrail improvements	Install guardrail and improve shoulders on three roadways in Lakes Highway District.	\$1,631,000
22607	2023	Yellowstone Trail Rd Improvements	Address current safety deficiencies; widen road and add roadside safety measures.	\$4,566,000
22468	2022	I90 Special Pavement Markings	Ensuring visibility of priority special pavement markings.	\$345,000
22768	2027	I90 Hazard Tree Removal	Removal of hazardous trees in median and along outside edge.	\$444,000
22799	2027	Spirit Bend Ave, Atlas Rd, Conkling Rd Improvements	Intersection improvements	\$1,207,000

22872	2027	Canyon Rd & Fernan Lake Rd Guardrail	Install guardrail	\$525,000
22874	2023	Rectangular Rapid Flashing Beacons	Install RRFBs at intersections in Coeur d'Alene	\$525,000
ORN23283	2023	Lane Departure Corrective Measures	Install edge delineators along ten (10) roadways (approx. 57 miles) within Lakes Highway District	\$105,000
ORN23284	2024	Roadway & Guardrail Improvements	Install guardrail at five (5) locations and improve horizontal alignment at one (1) location within Lakes Highway District	\$589,000
ORN23285	2025	Greensferry Rd Guardrail	Install guardrail along three stretches of roadway within Worley Highway District	\$999,000

Pavement Condition

On August 8, 2019, the KMPO Board voted to support ITD's statewide targets for pavement condition. Pavement condition is rated based on three factors: IRI (International Roughness Index), Cracking (%), and Rutting or Faulting. For 2018, only IRI data was required to be reported to FHWA. However, ITD chose a more conservative target for 2019 to account for the additional measures that will be included going forward. The data below reflects all three criteria.

Pavement condition receives a 'Good' rating if it receives a 'Good' rating for all three conditions. A 'Poor' rating is received when pavement receives a

'Poor' rating in two or more of the factors. 'Fair' ratings encompass the remaining combinations.

	2021	2020 Conditions	
	Statewide Target	Statewide	Kootenai County
Interstate NHS Percent Good	50% or greater	59.7%	48.6%
Interstate NHS Percent Poor	< 4%	0.4%	3.4%
Non-Interstate NHS Percent Good	50% or greater	46.3%	14.6%
Non-Interstate NHS Percent Poor	< 8%	0.8%	1.6%

2020 Pavement conditions in Kootenai County for Interstate and Non-Interstate NHS paved surfaced in 'Poor' meets both of ITD's performance targets. The percent of Interstate and Non-Interstate NHS pavement rated in 'Good' condition in Kootenai County continues to miss ITD's targets. However, Interstate pavement rated as 'Good' did increase significantly over 2019 ratings.

The following projects are programmed with an emphasis on improving pavement conditions in the region on both Interstate and Non-Interstate NHS roadways:

Interstate				
Key Number	Project Year	Project	2020 Condition	Total Cost
ORN23243	2028	I90 – Wolf Lodge to Cedars Maintenance Site	Good/Fair	\$6,588,000
Non-Interstate				
Key Number	Project Year	Project	2020 Condition	Total Cost
Key Number 19452	Project Year 2026	Project US 95, IC #430 to Lacrosse Ave	2020 Condition Fair	Total Cost \$5,257,000
·	U	Ü		

An additional \$10,200,000 is programmed to improve pavement conditions on over 35 miles of roadways throughout the region.

• Bridge Condition

On August 8, 2019, the KMPO Board voted to support ITD's statewide targets for bridge condition. Bridge condition is classified as either 'Good', 'Fair' or 'Bad, and are assessed for the NBI (National Bridge Inventory) items of Deck, Superstructure, and Substructure. Culverts are also assessed. A bridge (or culvert) receives a 'Good' rating when it receives a 7 or higher for the NBI items. A bridge receives a 'Fair' rating when it receives a score of 5 or 6, and a 'Poor' rating is received when a bridge or culvert scores a 4 or below. A bridge that scores a 4 or less in these items is considered 'Structurally Deficient'.

Kootenai County NHS bridges reported as 'Good' falls below ITD's target of 19%, but is up from 2019. The number of bridges in 'Poor' condition is within ITD's target of 3%, with one bridge being rated as 'Poor'. However, the replacement of this bridge (SH 53-UPRR bridge) was completed in 2020. 85% of bridges in Kootenai County are rated in 'Fair' condition.

	2021 Statewide	2020 Cond	ditions
	Target	Statewide	Kootenai County
NHS Bridge Percent Good	19% or greater	23.2%	13.1%
NHS Bridge Percent Poor	< 3%	2.7%	1.6%

The following projects are programmed with an emphasis on improving bridge conditions in the region on NHS roadways:

Key Number	Project Year	Project	2020 Condition	Total Cost
23041	2023	US 95 – Spokane River bridge repairs	Fair	\$2,958,000
21935	2024	I90 – Coeur d'Alene River bridge replacement	Fair	\$19,487,000

• Travel Time Reliability

On August 8, 2019, the KMPO Board voted to support ITD's statewide targets for Level of Travel Time Reliability (LOTTR). ITD uses the NPMRDS (National Performance Management Research) Data Set available through FHWA to calculate travel time reliability for the state. The NPMRDS consists of GPS, cellphone, and other probe speed data collected from 2014 to present on the NHS.

Travel Time Reliability is defined by Federal highways as "the consistency or dependability of travel times from day to day or across different times of the day." The Level of Travel Time Reliability (LOTTR) is a comparison of the 80th percentile travel time to the "normal" (50th percentile) travel time. This is done for each segment of the roadway for each time period of the day (morning peak, evening peak, midday and overnight). If any time period has a ratio over 1.5, the segment is considered "Not Reliable" and "Not Reliable" segments are then calculated by the total annual volumes, segment length and occupancy rate to get the "Percent of Person-miles Traveled."

Kootenai County's current travel time reliability meets ITD's targets. Non-Interstate reliability has improved over 2019 conditions, but Interstate reliability, however, has decreased, primarily at the SH-41, Northwest Boulevard and US-95 interchanges.

	2021 ITD	2020 Co	onditions
	Statewide Target	Statewide	Kootenai County
Percent of the Person-Miles Traveled that are Reliable - Interstate	90% or greater	98.6%	99.9%
Percent of the Person-Miles Traveled that are Reliable – Non-Interstate	70% or greater	89.5%	97.9%

The following projects are programmed with an emphasis on improving travel time reliability in the region on both Interstate and Non-Interstate NHS roadways:

Interstate				
Key Number	Project Year	Project	Treatment	Total Cost
19344	2023	Early Corridor Acquisition & Preservation	ROW	\$1,156,000
20442	2025	I90/SH 41 IC	Construct Interchange	\$48,804,000
Non-Interstate				
Key Number	Project Year	Project	Treatment	Total Cost
10005	2027	SH 53/Pleasant View Rd IC	Construct Interchange	\$32,512,000
19452	2026	US 95 – IC #430 to Lacrosse Ave	Widen	\$5,257,000
20695	2022	SH 53 – Latah St to MP 9.3	Widen	\$4,884,000
	2022			Ψ 1,00 1,000

• Freight Reliability

On August 8, 2019, the KMPO Board voted to support ITD's statewide targets for truck travel time reliability. Truck Travel Time Reliability (TTTR) Index is the measure used to gauge freight reliability. TTTR represents the 95th percentile of truck travel time compared to the "normal" (50th percentile) of travel time for each of the four daily time periods. An average is calculated of all the segments worst TTTR ratios, resulting in the TTTR Index. This measure is vital for freight industry to predict reliability and ensure deliveries are made on time.

Kootenai County's TTTR decreased slightly since 2019 and, once again, meets ITD's performance target.

	2021	2020 Co	nditions
	Statewide Target	Statewide	Kootenai County
Interstate Truck Time Reliability Index	1.30 or less	1.17	1.26

The programmed projects listed under the previous section will also assist in improving freight reliability in the region.

• Transit Asset Management

Any agency that owns, operates, or manages capital assets used to provide public transportation, must develop a Transit Asset Management (TAM) Plan. Transit Asset Management (TAM) seeks to address the growing backlog of transit assets in poor condition, which ultimately impact safety and the ability for agencies to serve their customers. Under the TAM requirements, transit agencies are required to collect data and monitor performance measures for rolling stock and equipment, infrastructure, and facilities.

Currently, Citylink North's assets include Revenue Vehicles, which they use for their urban fixed-route, paratransit, and Ring-a-Ride services, and Equipment. At this time, Citylink North is not yet meeting the targets for any of their asset classes.

The following projects are programmed with an emphasis on transit asset management:

Key Number	Project	Asset Category	Total Cost
19424	Bus Replacement	Revenue Vehicles	\$1,572,000
NEW	Equipment Acquisition/Replacement	Equipment	\$744,000

	Revenue Vehicles	
Performance	Age - % of revenue vehicles within a particular asset	
Measure	class that have met or exceeded their Useful Life	
	Benchmark (ULB)	
Asset Class	BU - Bus	CU – Cutaway Bus
2021	70%	64%
2022 Target	50%	40%
2023 Target	25%	20%

Performance Measure	Equipment Age - % of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	
Asset Class	Non-Revenue/Service Automobile	Trucks and other Rubber Tire Vehicles
2021	100%	100%
2022 Target	50%	50%
2023 Target	25%	25%

• Public Transportation Safety

FTA requires transit agencies to have an approved Public Transportation Agency Safety Plan (PTASP). The purpose of the PTASP is to assist transit agencies to manage safety risks by developing and implementing a proactive system to address potential hazards and create a culture of safety within each agency. PTASP's, once approved, much be updated and certified by FTA annually.

To monitor safety performance, agencies must set and monitor safety targets for the four performance measures that have been established, which include:

- Fatalities Total number of reportable fatalities and rate per total unlinked passenger trips by mode
- Injuries Total number of reportable injuries and rate per total unlinked passenger trips by mode
- Safety Events Total number of reportable events and rate per total vehicle miles, by mode
- System Reliability Mean distance between failures by mode

The Kootenai County Board of County Commissioners approved Citylink North's PTASP on December 15, 2020. The Plan is to be updated annually by February 15. Citylink North has set the following targets for the required performance measures for their Fixed Route and Demand Response services:

Performance Measure	Fixed Route*	Demand Response**
1 error mance weasure	2021 Target	2021 Target
Fatalities (Total)	0	0
Fatalities (per 100k VRM)	0	0
Serious Injuries (Total)	0	0
Injuries (per 100k VRM)	0	0
Safety Events (Total)	5	7
Safety Events (per 100k VRM)	1.097	1.383
System Reliability (VRM/Failures)	91,156	72,292

^{*}Operated by Citylink

Citylink North is actively tracking safety data for 2021 to evaluate their annual performance in relation to the initial targets that were set.

^{**}Operated by MV Transportation & Kootenai Health

Air Quality Certification

KMPO certifies that the Metropolitan Planning Area (MPA) is an attainment area under the Federal Clean Air Act and not subject to any related restrictions or air quality conformity requirements.

Certified by: Date: 9-09-2021

Glenn F. Miles, Executive Director

SELF-CERTIFICATION

In accordance with 23 CFR 450.334, the Idaho Transportation Department and the Kootenai Metropolitan Planning Organization (KMPO), designated Metropolitan Planning Organization for Kootenai County, hereby certify that the KMPO Transportation Planning Process addressed the major transportation issues within the MPO designated area and is being conducted in accordance with all applicable requirements of:

- (1) 23 U.S.C 134, 49 U.S.C 5303, and this subpart;
- (2) Title VI of the Civil Rights Act of 1964. As amended (42 U.S.C 2000d-1) and 49 CFR part 21;
- (3) 49 U.S.C 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (4) Section 1101(b) of the MAP-21 (P.L 112-141) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (5) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (6) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (7) The Older Americans Act, as amended (42 U.S.C 6101). Prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (8) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (9) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and CFR part 27 regarding discrimination against individual with disabilities.

Tribal Transportation Improvement Program 2020-2024

Approved by Tribal Council on January 16, 2020

Davenport Way Road Completed in Summer 2019

2020-2024 Project Summary

	Project Title	FY2020	FY2021	FY2022	FY2023	FY2024
1	Lovell Valley Road Overlay	\$ 20,040	\$ 1,080,000	\$ 40	\$ -	\$ -
2	DeSmet Road Sidewalk/Trail Construction	\$ 51,500	\$ 60	\$ 248,500	\$ -	\$ -
3	BIA Bridge Improvements/Design: (32), (11)	\$ 300,000	\$ 70	\$ -	\$ -	\$ -
4	Agency Road Overlay	-	60	400,000	60	_
5	Osprey Spirit Road	\$ -	\$ -	\$ -	\$ 285,040	\$ 694,914
6	Agency Road Rehabilitation	\$ -	\$ -	\$ -	\$ 20	\$ 75,990
7	Routine Road Maintenance	\$ 20,000	\$ 20,000	\$ 20,000	\$ 20,000	\$ 20,000
8	Administrative Capacity Building	\$ 35,000	\$ 35,000	\$ 35,000	\$ 35,000	\$ 35,000
	Fiscal Year Project Totals	\$ 426,540	\$ 1,135,190	\$ 703,540	\$ 340,120	\$ 825,904
Funds Expended	Existing FAST Act Programmatic Agreement Funds	\$ 126,540	\$ 879,754	\$ 1	\$	\$ -
	BIA Bridge Funds	\$ 300,000	\$ -	\$ -	\$ -	\$ -
	Future Annual Allocations	\$ -	\$ 255,436	\$ 703,540	\$ 340,120	\$ 825,904
	Year-End Balance Funds Remaining	\$ 1,304,754	\$ 594,564	\$ 316,024	\$ 400,904	\$ -

Key

Existing FAST Act Funds, Current Balance is: \$1,006,294.00
BIA Bridge Funds, Current Balance is: \$300,000.00
Future Allocations Expected to be approximately \$425,000.00 Per Year

Total Federal Funds Expended During FY2020-FY2024: \$ 3,431,294.00 Total of Existing and Future Allocation for FY2017-FY2021: \$ 3,431,294.00
